## Bathroom Refurbishment

### CLIENT:

Brampton Primary  
School

### VALUE:

£40,000

### DURATION:

2 Weeks

## About

The works involved new non slip vinyl, tiling to walls, new compact laminate cubicles and vanity units were installed alongside new sanitary ware, lighting and ceilings.

The school very short timescale for the works to be carried out. The boys' toilet was stripped out, refitted and completed in just two weeks. To enable this, the works had to be extensively planned and meticulously monitored, utilising weekends and out of hours working.

The principle surveyor and the head teacher were extremely pleased with the end result and the dedication of the whole team.
