

Mental Health Ward Extension
Barnet Enfield & Haringay MHT
June 2021
Project Value £650K

Every Project Counts were the contractor of choice for the new build extension in the Mental Health Unit Silver Birches at Chase Farm Hospital. The new extension was designed to provide new secure bedrooms with ensuite bathrooms, anti lig-iture fixtures and fittings throughout and remodelling of the surrounding landscape. There were challenges with the project including the covid 19 pandemic, occupied areas and shutting down electrical services to the whole Chase Farm Hospital site and re instating over a two hour period. All were overcome with our vastly experienced team carefully planning and working alongside the estates management. The project finished on time within budget and to an extremely high standard and is a wonderful resource for the Trust.
