

Milwards Refurbishment

Harlow Council

June 2022

Project Value £150K

The Residents of Milwards had been experiencing condensation issues within the stairwell and communal areas. They had reported roof leaks and draught issues within their properties and subsequently these issues had been an ongoing problem for Harlow Council.

Following a competitive tender process Every Project Counts was contracted to address all of the issues and to re-decorate the exterior.

The works included carrying out a detailed thermal survey of the building fabric to identify cold spots. The old cavity insulation was removed and replaced with new. New insulated flat roofs were installed to the communal areas with ventilation and guttering works. Finally we installed new double glazing and decorations throughout.
