

New Resource Area

North Beckton Primary School

January 2020

Project Value £400K

The new resource area began in early 2020 .

During the demolition phase of the project the Covid 19 pandemic hit the uk and the majority of the country was in lockdown.

Every Project counts was asked by the education authority to continue the work with appropriate safeguarding measures.

Our staff and operatives were consulted and everyone agreed to continue.

The project involved the infill of and existing swimming pool new BMS system ,new roofing ,skylights soft play area and the total refurbishment of a large area of the school.

A very complicated project was completed to an extremely high standard on time and budget even with the challenges Covid presented.

When the finished project was inspected by the London Borough of Newhams Principle Surveyor Ralph Barkway his comment was,"what you have achieved here is nothing short of amazing'.
