

Salisbury Primary School
Staffroom & Toilet Extension
Summer 2020
Project Value £490K

Every Project Counts were contracted to carry out an extensive demolition of the existing staffroom and toilets to create an exciting new staff area. Working collaboratively with the client Every Project Counts were able to create a space that fulfilled the school's needs, fitting the design brief and creating not only a functional but also aesthetically pleasing areas. The new area provided the staff with a new modern kitchen with Karndean flooring, bespoke quartz worktop, new integrated appliances, a hot and chilled tap and a colourful sprayed glass splash back. As the new staff and children's toilets were to be unisex, we used full height SGL cubicles to comply with the regulations. The toilets had bespoke made wash troughs/vanity units and were completed with beautiful chameleon high gloss coloured hygienic wall cladding.
